EDUCATION

University of California, Irvine

- B.A. Business Administration
- B.S. Computer Science
- Dean's Honor List

SKILLS

UI/UX & Brand

End-to-End Product Design, UI Design, Interaction Design, User Flows, Design Systems, Reusable Components, Responsive Design, Wireframing, Prototyping, Visual Design, Typography, Brand & Visual Identity, Motion Design, User Research, User Interviews, Usability Testing

Tools

Figma (Auto Layout, Components), FigJam, Figma Make, Figma Motion, Claude Code, Claude Design, MCPs, Adobe Creative Cloud (Photoshop, After Effects, Premiere Pro), React, Next.js, TypeScript, HTML, CSS, Framer, UserTesting, Amplitude, Notion

Soft Skills

Self-Directed, Receptive to Feedback, Attention to Detail, Comfort with Ambiguity, Remote Collaboration, Cross-functional Collaboration, Stakeholder Presentations

INTERESTS

Creative Technology, Brand Design, AI Ethics, Entrepreneurship, Film, Photography, Viola, Rock Climbing

EXPERIENCE

Streets 05.2026-Present

Founding Product Designer

- Led end-to-end design of **Streets Atlas**, an AI maps platform, from user research to UI for **3 enterprise clients**
- Built a design system of **75+ reusable UI components**, keeping typography, color, and hierarchy consistent
- Designed the startup's **brand identity**, from an S-shaped logo and color system to product marketing assets
- Prototyped **10 end-to-end SaaS flows** in **Figma Motion**, from wireframes to high-fidelity UI over **50+ frames**
- Shaped product direction, reworking **5+ product requirements** after benchmarking **10+ competitors**
- Partnered with engineers from research through production, shipping Figma designs as **Next.js** code

Rocket Lawyer 06.2026-09.2026

UX Research Intern, AI Experience

- Helped evolve Copilot's Negotiate & Sign flow into the **Business Center Dashboard** for non-legal users
- Ran **15 interviews, 4 focus groups, and 12 usability studies** that shaped AI product design decisions
- Designed original Copilot mockups and UI/UX recommendations, presented in **6 case studies** to PMs and execs
- Built **5 internal Claude Skills** on Figma, Chrome, and UserTesting MCPs to automate usability testing

Develop for Good 07.2026-Present

Product Designer

- Designed **CTC Market Online**, a web platform bringing culturally centered produce to low-income DC families
- Wrote design requirements docs and user flows, iterating an existing prototype toward a functional platform
- Conducted UX research on DC food access, grounding product decisions for nonprofit Connected To Culture

Product Association @ UCI 01.2026-Present

Product Design Lead

- Created **Aura**, a social skill-learning app using gamified leaderboards to drive daily engagement
- Turned **50+ surveys** and **5 user interviews** into personas, affinity maps, and design requirements
- Built **50+ prototypes**, **10 interaction flows**, and **20+ reusable components**, validated in **6 usability tests**

Design @ UCI 10.2025-06.2026

Project Teams Lead

- Designed **Findy**, an AI assistant guiding seniors through mobile UI and tech support
- Ran focus groups and usability tests with **10 older adults** to iterate on Findy's mobile flows
- Won UCI's **Project Teams competition**, leading a multi-disciplinary team through a **10-week design sprint**

Design4Access 02.2026-Present

Research Assistant

- Conducted **6 user research interviews** with disabled students and educators, informing accessible design
- Designed web layouts for a full **AccessComputing** site redesign for NSF and the University of Washington
- Built **10 user flows** and advocacy materials for UCI AccessComputing's **$20,000** crowdfunding campaign

Adobe 07.2026-Present

Campus Ambassador

- Led **5+ hands-on Creative Cloud workshops** for **50+ students**, teaching Adobe tools for creative work
- Planned **10+ campus events** for UCI students, trading event playbooks with a global ambassador cohort
- Partnered with **5+ student orgs** through peer and club outreach to cross-promote Adobe events across campus
