EDUCATION

University of California, Irvine	Available: January 2027 - September 2027
• B.S. Computer Science, Information Emphasis · B.A. Business Administration, Finance Emphasis	

EXPERIENCE

Streets · Dallas, TX	05.2026-Present
-----------------------------	-----------------

Founding Design Engineer

- Own design engineering end-to-end on an AI-powered maps platform, from user flows and mockups through shipped front-end code.
- Built and shipped 75+ Next.js and React components, translating Figma design system specs into production front-end over an MCP workflow.
- Vibe coded 10+ high-fidelity interactive prototypes in Claude Code and Figma Make, taking product concepts end-to-end without engineering.
- Partnered with engineers on technical constraints and shaped 5+ product requirements, keeping multi-platform web and mobile UI consistent.

Rocket Lawyer · San Francisco, CA	06.2026-09.2026
--	-----------------

UX Research Intern, AI Experience

- Built 5+ internal Claude Skills and AI agents wiring Figma, FigJam, and UserTesting MCPs into one automated research pipeline.
- Ran 12+ usability studies and 10+ interviews on an enterprise AI copilot, validating design directions before engineering built them.
- Curated and refined generative AI copilot responses, benchmarking tone, empathy, and response length against competitor AI tools.
- Communicated NPS, CSAT, and Amplitude findings to PMs and execs, tying user experience decisions to business metrics.

Product Association @ UCI · Irvine, CA	01.2026-Present
---	-----------------

Product Design Lead

- Designed Aura, a social skill-learning platform, using gamified leaderboards and stats to drive daily engagement for Gen Z users.
- Ran 50+ surveys and 5+ user interviews, synthesizing behaviors and needs into personas and affinity maps that framed requirements.
- Turned research insights into concepts, user flows, mockups, and interactive prototypes across 50+ screens.

EAT Studio · Los Angeles, CA	08.2026-Present
-------------------------------------	-----------------

Brand Design Intern

- Refining brand identity, typography, and visual assets alongside EAT's graphic designers, holding a high bar on craft and design taste.
- Supporting a lean, cross-disciplinary studio across motion design, graphic design, UI/UX, branding, and visual content for clients.
- Founded and led a mentorship program, building a capstone curriculum, networking events, and workshops for designers.

INVOLVEMENTS

Design @ UCI · Irvine, CA	10.2025-06.2026
----------------------------------	-----------------

Project Teams Lead

- Led a multi-disciplinary project team through a 10-week design sprint, coordinating research, concepting, and delivery.
- Designed Findy, an on-screen AI assistant guiding seniors through tech support, shaped by focus groups with 10+ elderly users.
- Produced 40+ deliverables presented to industry judges, winning UCI's case study competition.

UCI Undergraduate Business Association · Irvine, CA	09.2024-03.2026
--	-----------------

VP of Internal Relations, Front-End Designer & Engineer

- Led development of UBA's official website in React, growing traffic to 650+ monthly visitors across 50+ active members.
- Built a responsive interface with Framer Motion and Lenis, shipping 10+ reusable, accessible components with smooth animations.
- Iteratively translated member feedback into 5+ design mockups, closing the loop between community input and shipped features.

SKILLS & TOOLS

Design: Product Design, Design Engineering, Design Systems, User Experience (UX/UI), Interactive Prototyping, Visual Design, User Research

Engineering: React, Next.js, TypeScript, JavaScript, HTML/CSS, Responsive & Cross-Platform, Python, SQL, Git, Vibe Coding

AI & Tools: Claude Code, Claude Skills, MCP, Agent Orchestration, Artificial Intelligence, Figma, Figma Make, FigJam, Adobe CC, Amplitude
